

*“Yours, O Lord, is the greatness and the power and the glory and the victory and the majesty, for all that is in the heavens and in the earth is yours. Yours is the kingdom, O Lord, and you are exalted as head above all.” - 2 Chronicles 29:11, ESV*

Hi reader!

My vision for the finance ministry is to effectively steward the resources given to us by God through club membership fees towards two main goals:

1. Expanding God's kingdom on campus through our various ministries and outreach opportunities
2. Facilitating the fellowship between and growth of our members in their walk with Christ.

I believe that God has blessed us with the special opportunity to serve both the Western University campus and greater London community through our weekly gatherings and various external events. In running this fellowship, we are called to use our financial resources responsibly, transparently and prayerfully. Above all, we should strive to glorify God and exemplify his traits in everything we do.

My vision for the fellowship is grow in three ways: in numbers, in faith, and in love for Christ and each other. I want ACF to be a space where newcomers can find a nurturing community that is Christ-centered and people-focused. I want ACF to be a place where returning members can find spiritual support in their fellow believers and encouragement to serve where they feel called towards. I believe that if we work progressively towards these goals, ACF will flourish for years to come.

I felt called towards this position as I believe God has given me the gift of being really good at accounting, which has allowed me to help in various instances where planning and budgeting are needed. I also think that God has given me a heart that enjoys serving others, and this would allow me to serve not just occasionally to a few people but over a whole school year to the whole fellowship. I have truly appreciated the countless offers to serve that this year's executive team has extended to me, and would like to continue in serving the fellowship through such an important role.

Sincerely,  
Maxwell
